## About Dr. Ming Wang, MD, PhD:

Dr. Wang is a Harvard and MIT graduate (MD, magna cum laude) and one of the few cataract and LASIK eye surgeons in the world today who holds a doctorate degree in laser physics.

As a teenager, Ming fought valiantly to escape one of history's darkest eras – China's Cultural Revolution – during which millions of innocent youth were deported to remote areas to face a life sentence of poverty and hard labor. Through his own tenacity and his parents' tireless efforts to provide a chance of freedom for their son, Ming eventually made his way to America with \$50 in his pocket and an American dream in his heart, where against all odds he would earn a PhD in laser physics and graduate magna cum laude with the highest honors from Harvard Medical School and MIT. He embraced the Christian faith and tackled one of the most important questions of our time – are faith and science friends or foes? – which led to his invention of a breakthrough biotechnology to restore sight.

To date, Dr. Wang has performed over 55,000 eye procedures and has treated patients from nearly every state in the U.S. and from over 55 countries worldwide. He is considered the "doctor's doctor," as he has operated on over 4,000 physicians. Dr. Wang has published 8 textbooks, holds several U.S. patents, including the world's first amniotic membrane contact lens, and performed the world's first laser artificial cornea implantation. He is the recipient of the Honor Award from the American Academy of Ophthalmology and the Lifetime Achievement Award from the American Chinese Physician Association. Dr. Wang is currently the only surgeon in the state who performs 3D SMILE & 3D LASIK (18+), 3D Kamra & 3D Raindrop (45+), 3D Forever Young Lens (50+) and 3D Laser Cataract Surgery (60+). Dr. Wang established a non-profit foundation which provides sight restoration surgeries for indigent patients who otherwise would never have the opportunity to receive them free-of-charge.

Dr. Wang was named the Nashvillian of the Year by Kiwanis International. He is the CEO of Aier-USA which brings in investment from China to create American jobs. He is the president of the Tennessee Chinese Chamber of Commerce and co-founder of the Tennessee Immigrant and Minority Business Group. The mission of the chamber is to help Tennessee businesses learn about China and increase their export to China.
